Dear Student,

Hope you are doing well, congrats on entering the project phase below is the problem statement as well as the data sets for major project kindly go through.

Problem Statement: You will be predicting the costs of used cars given the data collected from various sources and distributed across various locations in India.

FEATURES:

Name: The brand and model of the car.

Location: The location in which the car is being sold or is available for purchase.

Year: The year or edition of the model.

Kilometers_Driven: The total kilometres driven in the car by the previous owner(s) in KM.

Fuel_Type: The type of fuel used by the car.

Transmission: The type of transmission used by the car.

Owner_Type: Whether the ownership is Firsthand, Second hand or other.

Mileage: The standard mileage offered by the car company in kmpl or km/kg

Engine: The displacement volume of the engine in cc.

Power: The maximum power of the engine in bhp.

Seats: The number of seats in the car.

New_Price: The price of a new car of the same model.

Price: The price of the used car in INR Lakhs.

The Project groups have been formed and google classroom is created for interaction between students. Please accept your google invitations and coordinate with your teammates in completing the major project. All are required to coordinate in your respective classrooms only. Active participation in google classroom is **mandatory**.

The last date of submission is **10th April 2020**.

Submission:

1. Please submit your assignments to event@verzeo.in and in your respective classrooms.
2. Any project submitted to support@verzeo.in will not be evaluated.
3. The subject line for your submission must be in the following format- **ML-MAJOR-FEB-GOOGLE CLASSROOM NAME**.
4. Projects without a proper subject line will not be evaluated.

NOTE:

All project evaluations will take 7-10 days to complete

The examination will be conducted post your project, hence you are required to finish all exam preparation by then.

Thanks & Regards

verzen
